## 会长寄语

Dear Members and Friends,

As we close another chapter and welcome the new year, I am honored to address you through our 2023 Annual Report. This past year has been a testament to resilience, innovation, and the strength of partnerships, marking significant milestones for CGCC. Reflecting on our journey, we have not only navigated through challenges but also seized opportunities to foster growth and mutual understanding between Chinese and American enterprises in the United States.

2023 stood out as a landmark year for CGCC, celebrating the publication of our 10th consecutive Annual Business Survey Report on Chinese Enterprises in the United States. This decade-long endeavor has consistently provided valuable insights into the evolving landscape of Chinese investments in the U.S., highlighting trends, challenges, and opportunities. The report has become a cornerstone for policymakers, business leaders, and academics alike, offering a comprehensive analysis that supports informed decision-making and strengthens bilateral business relations.

Our commitment to fostering prosperous partnerships has never been stronger. Throughout the year, we deepened our collaboration with various states, including New York, California, Washington D.C., Texas, Delaware, Hawaii, Tennessee, among others. These partnerships have been instrumental in facilitating dialogue, understanding, and cooperation across diverse sectors. Whether it was hosting forums, roundtables, or member company visits, each collaboration served as a bridge to connect cultures, economies, and communities, underscoring our mission to create value and enhance bilateral cooperation.

Throughout 2023, CGCC's efforts extended beyond business development and economic engagement. We continued to work tirelessly to support our communities, promote cultural exchange, and advance social initiatives. Through our diverse partnerships with local charities, cultural organizations, and government agencies, we have contributed to the social fabric of the communities we operate in, fostering an environment of inclusivity and mutual respect.

Looking ahead, we remain committed to building a friendly, diverse, and inclusive business environment. The path forward will undoubtedly present new challenges, but with the unwavering support of our members and partners, we will continue to play a crucial role in shaping the future of U.S.-China business relations, driving economic growth, and fostering a deeper understanding between our nations.

I extend my sincerest gratitude to all our members, partners, and friends for your continued support and dedication. Your engagement and contributions have been pivotal to our success and will remain the cornerstone of our efforts moving forward. Together, we will continue to strive for excellence, innovation, and cooperation towards tomorrow.

## CGCC Annual Business Survey Report on Chinese Enterprises in the U.S.

### 美国中国总商会在美中资企业年度商业调查报告

2023 marked the 10th anniversary of CGCC's Annual Business Survey Report on Chinese Enterprises in the U.S. Over the past decade, U.S.-China economic and trade relations went through ups and downs while Chinese enterprises in the U.S. also embraced alternating challenges. The flagship Annual Business Survey Report and the diverse publishing research materials serve as powerful informative tools for member companies and the larger U.S.-China business communities to better comprehend the macro business environment and to enhance operating resilience.

美国中国总商会《在美中资企业商业调查报告》已连续发布十年，是目前最具参考价值的在美中企发展情况报告。10年间，中美经贸关系经历跌宕起伏，中企海外发展面临的挑战也不断迭代。总商会丰富的研究报告和各类出版物持续为会员企业提供信息和沟通支持，传递会员声音，提高企业韧性，助力营造更加友好的中美商业环境。

# 2023 Survey Key Findings

## 1 Company performances stabilize and slowly recover from disruptions since the pandemic

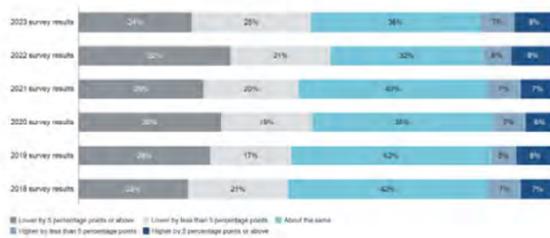

- Compared to the 2022 survey results, only 42% of companies reported year-over-year revenue growth, and 13% experienced a revenue decline of more than 20% of those surveyed.
- 35% expect their U.S. revenues to remain flat over the next two years; 19% expect revenue to decline over the next two years; and the overall percentage of companies expecting lower revenues was 5% higher than last year's survey.
- Compared to the tough situation shown in the 2021 survey, the 2023 result shows improvement. However, it is still far from the high point five years ago when economic and diplomatic relations were more favorable.

## 2 Tensions in U.S.- China relations and persistent inflation are top concerns for Chinese companies in the U.S.

- This year 81% of respondents are concerned with the bilateral tension between the U.S. and China; 68% show concerns over the inflation in the U.S. and the impact on the economic environment.
- 44% of companies predict further deterioration in U.S.- China relations while 83% report that inflation and economic uncertainty has already had a negative impact on their business.

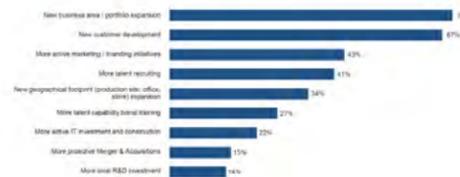

Figure 26. Year-on-year change of U.S. companies' EBIT margin

## 3 Chinese companies are mostly satisfied with the U.S. market and have developed localization strategies to maximize business growth

- Over 80% of Chinese companies are satisfied (or neutral) with all aspects of the U.S. business environment. Of these, 58% are very satisfied with the U.S. support for innovation, technology, and Environmental, Social, and Governance (ESG) concerns.
- While most companies report that they have largely or fully met their motivation for establishing a presence in the U.S., approximately 20% of companies report that actual growth has been lower than expected, while an additional 50% report that U.S. profitability is lower than their Chinese parent companies.

Figure 35: Most important actions on the journey of development of Chinese companies during the "up" cycles

## 4 Past up and down cycles help Chinese companies cope with short-term fluctuations

- In the "up" market cycle, "new business areas and portfolio expansion" are the top strategic priorities adopted by Chinese companies.
- During the "down" cycle, 65% of respondents choose to "aggressively change their core business strategies", while 54% of respondents vote to "explore new business opportunities" to offset the pressure.

Dear Chairman Hu,

Please accept my heartfelt thank you for your thoughtful letter and for the China General Chamber of Commerce – USA Foundation's generous donation to the Council for Native Hawaiian Advancement's Kāko'o Maui Fund in support of the recovery efforts from the Maui wildfires.

This past Friday marked the one-month anniversary of the devastating fires, and we continue to grapple with the profound and far-reaching impact on our state and the heavy toll on the well-being of Maui's people. Despite these immense challenges, the global community has come together to help, and we greatly appreciate your support.

Thank you again for your kindness and continued support to our community during these devastating times. Your willingness to assist is appreciated and the people of Hawai'i are grateful for your support.

With warm aloha,

Sylvia Luke
